High school gymnasium Vukovar

2019-2022
Faculty of informatics in Pula
univ.bacc.inf

2022-
Faculty of informatics in Pula
Master's Degree Program

Core skills

- HTML/CSS
- JavaScript/TypeScript
- Vue.js/Nuxt.js
- Git
- Responsiveness

Experience

03/2022 - 06/2022
Lloyds Digital
I was on practice where I worked on a website.

01/2023 -
Lloyds Digital
During the first year of my master's studies, I returned to practice and continued working there as a frontend developer. I work on developing web applications, web shops, and similar projects.

Personal skills and competencies

Language	Understanding	Speech	Writing
English	9	7	8

Driving license

B category

Organizational skills

- Team collaboration
- Discipline and attention to detail
- Eagerness to learn new technologies and tools

Computer skills

In college, I have gained experience with various programming languages, including C++, Vue, Vite, MySQL, MongoDB, Firebase, Big Data Analytics, Python, C#, Java, JavaScript, Node.js, Git and other. During my studies, I developed several web applications. In my current role, I work with Nuxt.js, JavaScript and TypeScript. I am currently developing a web3 application for realizing a decentralized social network, utilizing technologies such as React, Solidity, Hardhat, and IPFS. I genuinely enjoy designing and creating such solutions.

Other skills

Gym, rollerblading
